

PRESIDENT: Well it's not being asked to be held over.

SENATOR SCHMIT: I think that would be the general consensus. We've done that before you know.

PRESIDENT: In any event, there is an objection. So the unanimous consent is denied. Senator Carsten.

SENATOR CARSTEN: Mr. President, then I would move that these amendments be printed in the Journal.

PRESIDENT: Alright. There is a motion before the House. Senator Luedtke.

SPEAKER LUEDTKE: Mr. President, the only thing I'm saying is that all these amendments, if they're placed on the desk for Select File action, they can be there for Select File, they'll all be printed anyway. So there isn't any need for the motion. All they've got to do is put them on the desk, they will be printed, if they ask to have them, on Select File. Isn't that right? If he asks to have them printed they'll be printed.

PRESIDENT: Senator Clark.

SENATOR CLARK: I don't object to making print of it, that won't stop the bill from being heard will it? Thank you.

SPEAKER LUEDTKE: ...any objection to any.... I remove my objections, Senator Carsten can have them put on.

PRESIDENT: Okay, again then Senator Carsten renews his request for unanimous consent to print the amendments. Is there an objection? Seeing none, it is so ordered.

CLERK: I just read the title to LB 268, Mr. President. There are no committee amendments or other amendments pending.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the Legislature. LB 268 establishes a uniform grade of weight classifications for eggs. The reason for the bill is to promote intrastate and interstate dealing in eggs. It is a bill that we need in order to facilitate the marketing of this important product in the State of Nebraska. The Committee heard the bill. There were no opponents to the bill. I would move the bill be advanced.

PRESIDENT: Any further discussion? The question is the advancement of LB 268. Record your vote. Record. The bill is advanced. LB 308.

CLERK: Read title to LB 308. There are no committee amendments or other amendments pending.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the Legislature. The wording in this bill takes the Department of Health out of the water pollution control approval. The Department of Environmental Control must go out and inspect areas and makes
